BLACKENED WALLS REMAIN.

An Entire Block of Buildings Burned in Brooklyn, New York.

ELECTRIC RAILWAY SHOPS GO.

Engines Unable to Handle the Fire— Loss Estimated at \$200,000 ---Origin Unknown.

By Wire to THE TELEGRAM.

BROOKLYN, Sept. 3.—The repair and car shops of the Nassau electric railroad, at Thirty-sixth street, were burned this morning.

These were buildings occupying an entire block and only blackened walls remain. The damage is estimated at two hundred thousand dollars.

On account of the inaccessibility of the fire, the engines did not arrive on the scene until the flames were beyond control and they were utterly powerless to save the buildings. The firemen had great trouble with the trolley wires. Hard work and great caution was necessary lest their lives be endangered.

The police do not believe the fire was of incendiary origin although the start is unknown. It is thought to have caught from an imperfectly insulated wire. Watchman Patrick Fallor first discovered the fire.

The Franco-Russian Alliance.

PARIS, Sept. 3.—The minister of commerce, M. Boucher, is quoted, in an interview printed by the Gaulois to day, as saying that the governments of France and Russia are anxious to make every effort compatible with their economic interests to develop commercial intercourse between the two countries.

Continuing, M. Boucher said he did not entertain the least hope that Russia would abandon her protective policy, as the chief object of Russia was to draw capital into the empire, and that policy had been crowned with success, many French, Swiss, Belgian and other manufacturers having established works in Russia. On the other hand, the aim of France was to encourage exports. Where large government contracts could be obtained, French influence had succeeded in obtaining them. For instance, contracts had recently been obtained to construct eighty locomotives for Russia and to build a new bridge over the Neva. The minister added that individual enterprise must still exert itself.

Japan and Nicaragua Canal.

By Wire to THE TELEGRAM.

WASHINGTON, Sept. 3.—It is reported that the Japanese government is secretly negotiating with the diet of the Greater Republic of Central America for the construction of the Nicaragua canal independent of the United States and other countries interested, but the report receives little credence in official circles. The enormous expense attending the work, estimated at \$175,000,000, is mentioned as a strong reason for disbelief of the report.

Seth Low Accepts the Nomination.

By Wire to THE TELEGRAM.

NORTHEAST HARBOR, Me., Sept. 3.—Seth Low has accepted the nomination of the citizens' union to become its candidate for mayor of Greater New York.

Secretary Clark, of the citizens' union, notified the nominee today in public that he was the choice of the organization. The presentation of the nomination was made shortly before noon.

Fresh Accessions for Strikers.

By Wire to THE TELEGRAM.

CHARLESTON, W. Va., Sept. 3.—The miners here have joined the ranks of the strikers. The Kanawha district is completely tied up today. Organizer Evans says he is now satisfied with the outlook.

Bomb-Throwers Sentenced to Death.

By Cable to THE TELEGRAM.

CONSTANTINOPLE, Sept. 3.—Eight Armenians were sentenced to death for participation in the bomb-throwing which occurred in this city on the nineteenth of August.

Killed at a Prayer Meeting.

By Wire to THE TELEGRAM.

MONTGOMERY, Ala., Sept. 3.—Rufus Smith, a negro, was killed at Forest Home last night. He was shot through a window while attending a prayer meeting.

McKinley Arrives at Columbus.

By Wire to THE TELEGRAM.

COLUMBUS, O., Sept. 3.—President McKinley and party arrived here at 10 o'clock this morning. They came as guests of the Ohio Agricultural Board. The length of their stay has not yet been given out.

WILL NOT RENEW THEIR BONDAGE

Seven Thousand Vest Makers Strike Against Starvation Wages.

By Wire to THE TELEGRAM.

NEW YORK, Sept. 3.—The Vest Makers Union strike is in full force today. Seven thousand of the men, women and girls who have been engaged in eking out their scanty subsistence at machines and benches in sweatshops, yesterday refused to renew what they consider their bondage. They went on a strike this morning, which was the end of the garment workers week.

Most of the workers are women and girls, the majority of whom hardships, long hours and the severest kind of toil have given the appearance of prematurely old women.

Foul Work of Nihilists.

By Cable to THE TELEGRAM.

PARIS, Sept. 3.—The body of a beautiful woman, naked and frightfully mutilated, with the nose and ears missing and skull fearfully crushed, was found in the river Seine this morning. On the middle of the back was the words, "Long live Poland" and "Death to traitors."

The remains are supposed to be those of a nihilist who incurred the suspicion of her fellow nihilists.

Horses for Skaguay Pass.

SEATTLE, Wash., Sept. 3.—The demand for horses to be used in packing over the passes from Skaguay is increasing, and during the week several hundred horses will be shipped there. There are now at Skaguay about 4,000 horses, and it is difficult to see how this number can be fed during the winter. Many predict that both men and horses will be starving before spring, and that the horses will be killed and eaten.

Gratuitous Reports.

It has reached our ears, from various sources, that enemies of THE TELEGRAM are industriously circulating the report that THE TELEGRAM is an experiment, that it would shortly suspend publication, that our subscribers were for a month only and many of them were falling off. We have ignored these reports for a time, but feeling that some assurance is due our patrons, we have only to say that the patronage received has exceeded our expectations; that the number of subscribers we have lost is far on the safe side of a dozen, but on the contrary new subscribers are coming in daily; that our subscription books are always open to our patrons and an affidavit may always be had as to their accuracy.

THE TELEGRAM is not an experiment, but a reality; we are at least so encouraged that we are preparing to increase our equipment at an additional cost of a thousand dollars.

THE TELEGRAM is a permanent institution.

British Defeat Tribesmen.

SIMLA, Sept. 3.—Colonel Abbott, with two guns and a squadron of the 18th Bengal Lancers and the 1st Regiment of Sikhs, has attacked 1,500 of the enemy at Doaba, on the road from Hangu to Thull. The Crakzais fled, the cavalry failing to cut off their retreat.

BOMBAY, Sept. 3.—The centers of interest along the frontier this morning are Hangu and Shabkadar, where serious fighting is imminent.

The 2d Regiment of Gourkhas, with Brigadier General Yeatman-Biggs and his staff, has arrived at Hangu. There the camp, which was open and scattered, has been transformed into a defensible position, surrounded by the sheltered trenches and breastworks of earth bags. The camp has also been well supplied with stores and ammunition. According to reliable reports there are 10,000 hostile Orakais on the hills surrounding Hangu. General Yeatman-Biggs has with him a mountain battery, the Royal Irish Regiment and five native regiments.

The 18th Bengal Lancers and the 9th Field Battery are at Shipwari, to cut off the retreat of the enemy.

Advices from Shabkadar say that the Haddah Mullah is threatening the front of that place, where the enemy has collected in great numbers. Colonel Mills, who is in command at Shabkadar, has at his disposal the 20th Punjab Infantry, the 39th Gourkhas, the 13th Bengal Lancers, a battery of field artillery and a wing of the Somersetshire Light Infantry. The balance of the Somersetshire Regiment and the 26th Punjab Infantry are on their way to reinforce Colonel Mills at Shabkadar.

Arrival of Admiral Beardslee.

SAN FRANCISCO, Sept. 3.—Among the passengers who arrived from Honolulu per steamer Australia were Admiral L. A. Beardslee and wife. Admiral Beardslee recently turned over his command to Admiral Miller and will shortly be placed upon the retired list. He will leave for Washington in the near future.

RAILROADS IN CONFERENCE.

Preparing for Rapid Movement of Coal When Strike is Settled.

COAL FAST GROWING SCARCER.

No Steps Will be Taken Looking to Resumption of Work—Thinking Strikers Will Win.

By Wire to THE TELEGRAM.

CLEVELAND, O., Sept. 3.—The conference called by the operators and representatives of the coal-hauling railroads is in session here today. It is the purpose of the conference to make arrangements for the rapid movement of coal so soon as the strike shall be settled. All of the Ohio coal roads are represented in the conference. There will be no steps taken looking to the resumption of work in this state until the strike is officially settled. There is a very marked scarcity of coal here and it is probable that there will be another advance in prices shortly. Ohio operators believe that the strike will eventually be settled on the basis that has been proposed by the miners.

Pontoon Bridge Collapse.

By Cable to THE TELEGRAM.

WEIMER, Sept. 3.—During the military maneuvers in this vicinity today a pontoon bridge constructed by the corps of pioneers collapsed while the ninety-fourth Thuringen regiment of infantry was passing over.

A number of soldiers and some of the trumpeters were either drowned or killed by the timbers of the bridge.

THE ONE THING NEEDFUL.

Why High Point Must Have Waterworks—A Plan Suggested.

There is one thing that High Point needs. We are behind the times so far as our water service is concerned. Our hewers of wood have made themselves famous all over the world, but our drawers of water are still content with the old fashioned rope and windlass method. Why should we not have a system of waterworks?

Dr. Bradshaw stated to me that the new dynamo which the town is to get ought to pay for itself in a few years. The city patronage given to a water system would without doubt exceed that given electric lights. But whether or not waterworks would be self-supporting, it is something that no progressive city with a population equal to High Point's will long remain without.

While many of our citizens would doubtless oppose any movement in this direction, it does not seem to me to be premature at all. Our town might lose by fire in one night property which would surpass in value the finest water system in the land. We also need a better sewerage system, which cannot be obtained without the water supply. High Point has an enviable reputation as a wide awake town and her bonds would very likely find a ready market at home and abroad. Let our citizens consider this matter.

Spain Should Ask for Damages.

HAVANA, Sept. 3.—The organ of the conservative party, La Union Constitucional, commenting upon the dispatches from Madrid announcing that the Spanish government is considering the manner in which to present to the United States, claims for damages as a result of the departure from America and landing in Cuba, of filibustering expeditions, says that the contemplated action of the government is justified, adding: "Is it not notorious that the influence and sympathy of Americans has been used in support of the separatists and of the rebellion? And is there any doubt of their responsibility before the world, for the misfortune which we are suffering from?"

THE MEETING OF MAYORS.

Considerable interest attaches to the convention of mayors to be held in Columbus, Ohio, on the twenty-eighth instant. It is becoming more and more the sense of those who have kept an eye upon present tendencies, that the solution of the problem of city government is the solution of the problem of all government whatsoever; that when the city is well governed, the country as a whole will be well governed. This has resulted in an effort, only partially successful, to draw the line between municipal and national politics. The results where this plan has been carried into effect have been encouraging, to a degree.

Historically considered, the city has always been the strength and the weakness of every nation; it has been at once the crown and the shame of every civilization. It huddles together the brightest in intellect and the basest in morals; the most colossal wealth and the most grinding poverty. The city flourishes and festers simultaneously. The man who would wreck or save the nation has found the city a lever ready to his hand.

Today this is more the case than ever before. Who shall estimate the weight of Greater New York as a social, political, intellectual, commercial factor in the life of this country? It is not too much to say that the United States will ultimately be what a dozen cities shall make it. In the end they must determine whether republican government must stand or fall. The study, therefore, of municipal government is of primary importance to us as a people; it is vastly more vital than any question of revenue or finance that touches us as a nation; it is a question of existence.

Take New York as an example. The career of Tammany Hall in that city has resulted in more evil to the American people than any mathematician can compute or any philosopher summarize. It has been a glaring example of the rule of the unfittest. Wherever the unfittest rule for long, the fit must gradually be lowered to their level. It has been the exemplar of every corrupt ring in every city in the country, that has conspired to capture and run the city government for its profit. It has been the high water mark of boodle politics; it has been and is, a warning to the citizen everywhere not to ignore the affairs of his city. Yet when New York had tried cleaner government for a season, it returned to the filth and rottenness of other days. It deliberately chose the ward-heeler and the bum. It is this that makes the present mayoralty race of deeper significance than any mere political contest.

However much it may wound our pride to say it, it is undeniable that, in the proper management of municipal affairs, the cities of this country are very much behind the cities of others; New York, Baltimore, Chicago, Cincinnati have much to learn from Glasgow, Birmingham, Manchester, Berlin.

Those cities are cleanly, more economically, more stably governed than any city in the United States. We

should neither be too proud nor too stupid to profit by their experience.

In the south the question of municipal government is not yet become a burning one; but when the south shall come into her heritage, and that day is not far distant, her growing cities will thrust upon her notice the same grave problems that perplex the larger cities of the north. Even as it is, there is occasionally exposed depths of depravity, in cities of thirty thousand, that Tammany could not surpass.

This conference of mayors, if it is held in good faith and not as a mere bid for new terms, should be productive of real benefit; it should mark a step toward the proper understanding of the science of city government, for it is a science, and should lay the foundation for valuable and permanent work.

When the densely populated city shall learn to govern itself well, the sparsely settled country will need small attention.

It is to be hoped that, at all events, this conference will warn the smaller cities against bartering away, for a song, precious franchises that put the city in the power of those who hold them; those who treat alike, with brutal indifference, the welfare of the city and the rights of the citizens.

The blackest pages of our history have been contributed by our cities; it will be well if in the future Richard Crokers shall become an impossibility.

EX-SECRETARY OLNEY shows in his utterances on the Brown University episode that he still knows how to speak out in meeting. His open and manly defence of President Andrews puts the vacillating policy of the Brown trustees in poor contrast. In asking Andrews' resignation that body gave an example of unparalleled narrowness; in asking him to withdraw his resignation, when they found public sentiment condemned their course, they have given an example of unparalleled moral cowardice. From any point of view they have cut a decidedly sorry figure.

WE SHOULD like to know whether that party of young gentlemen who "rode away booted and spurred" to hunt golf-links, some weeks ago, have found them yet.

THE announcement that Miss Cisneros is neither noble nor handsome will probably be followed by a sharp decline in her qualities as a drawing card.

Married in Raleigh.

News reaches us that Thad S. Troy and Mrs. Catherine P. Fraterhall were recently married in Raleigh. Young Mr. Troy is twenty years old and is well known in Greensboro, having relatives here. He is a son of Rev. T. L. Troy, who formerly lived in this city.

For the Klondyke.

It seems likely that Asheville will be well represented next summer in the Alaskan gold fields. Besides the two local representatives, Mr. Hunt and Mr. Buchanan, who are now breaking the ice in that direction, John Romeo, Jesse Lang and Samuel Silber, three Ashevilleians and formerly engaged in business here, will next spring be seeking their fortunes in the Klondyke. The three prospectors left Asheville this afternoon for New Orleans, whence they will go to San Francisco and thence to Seattle. They will spend the winter months in that city, and will next spring be among the thousands who will leave for the gold fields.

Mr. Romeo has corresponded with persons in Alaska, and is confident the party's trip will be successful.—Asheville Citizen.

Resigned.

J. S. Hayden, one of the operators at the Southern telegraph office, has resigned his position and will sell accident insurance to Southern employees.

Jack is one of the best operators around these parts and a clever young man. We wish him well in his new position.

C. F. & Y. V. Matter.

Judge Simonton, of the United States Court, will hear the motions and inter-motions in the case of the Farmers' loan and Trust Company vs. the C. F. & Y. V. railroad, et al, in Asheville, on the 22d of September.

One of the motions is to allow John W. Fries, of Salem, receiver of the North State Improvement Company, to sell the rolling stock of the road. It is understood that John Gill, receiver of the Cape Fear and Yadkin Valley, will make a counter-motion asking that his road be allowed to buy the rolling stock.

Orchestra Organized.

The Greensboro Orchestra was organized last night at the Brockmann Music School with sixteen members. The best talent in the city has been procured for the orchestra, and some good work may be expected.

The following are the members: C. J. Brockmann, director; A. H. Alderman, M. S. Sherwood, E. S. Wills, Zeb. V. Taylor, F. C. Boyles, L. F. Woodroffe, S. L. Alderman, Dr. J. H. Wheeler, W. F. Alderman, J. M. Reece, J. M. Rosenblatt, Claude Elam, R. E. Ridenhour, Norman Staples, Appleton Staples.

Found the Valise.

A few nights ago a valise was stolen from a train at the Southern depot. The valise belonged to J. C. Caddell, of Raleigh, and contained some valuable papers, which were recovered in a near-by lot the next morning, but the valise was not found.

Policeman Whittington was down in the "meadow" early this morning when he found the valise. Next in order is the capture of the thief, which will be done if he doesn't keep a sharp look-out.

Debs Speaks in St. Louis.

ST. LOUIS, Sept. 3.—Eugene V. Debs spoke for an hour Wednesday night to 500 people assembled in National hall under the auspices of the social democracy. He said: "The Supreme Court of the United States is a breeder of revolutions and a few more injunctions will see all of us walking side by side and fighting for the cause of humanity. I am anxious; I am ready. The time is ripe, and it is coming surely."

The speaker then lauded the anarchists who were hanged at Chicago, and said that some day his wife may mourn his loss as did the widows of those four men.

"They are martyrs, and the time will come when the world will pay tribute to their names and memories," he added. Mr. Debs then launched into an attack upon capital and capitalists, and asserted that it was his purpose to dispossess them of the property amassed at the expense of labor.

Kind Words.

The following, coming from the source it does and from a man who is a judge of such matters, is a highly appreciated in this office:

"The Greensboro Evening TELEGRAM, recently started, is the cleanest secular paper I have seen in North Carolina. It is a credit to the 'City of Flowers.' May its moral fragrance be always as sweet as the flowers of the 'Gate City.' I shall always esteem it a pleasure to tell of its excellence. Let every home in Greensboro welcome the clean columns of the TELEGRAM."—Charles A. G. Thomas in North Carolina Baptist.

New Officers Elected.

At a meeting of the Steamer Company, No. 1, held last night the following officers were elected:

Foreman—John Lewis.
First Assistant Foreman—Will Bain.
Second Assistant Foreman—W. P. Mulligan.
Engineer—W. H. Thomas.
Assistant Engineer—J. T. Abbott.
Finance Committee—J. T. Abbott, W. J. Blair and John Lewis.

Prof. and Mrs. J. Y. Joyner, of Greensboro, spent the afternoon here. They were accompanied by Miss Rouse, of LaGrange, Mrs. Joyner's sister, who will attend the next session of the Salem Academy.—Winston Sentinel.

A Welcome Denial.

We are in receipt of a note from the owners of our roller mill saying that the local in yesterday's TELEGRAM, to the effect that the mill will close, does them an injustice. The owners have no thought of suspending operations. We are more than pleased to make the correction. Our informant was one of the most reliable business men in Greensboro and we therefore accepted the bit of news without hesitation. It is true, however, that wheat has been brought here for sale and has not found a market.

Badly Scalded.

Robert, the little son of Mr. R. W. Brooks, was badly scalded yesterday. It seems he has been unwell for several days, and yesterday morning the cook gave him a bowl of gruel for his breakfast.

The bowl was overturned in some way, scalding the little fellow severely. Remedies were immediately applied, and he is now doing nicely.
